

REMARKS/ARGUMENTS

The specification has been amended to include sequence ID numbers for the sequence disclosures located at page 9, line 7, and page 21, Table 5. A Sequence Listing in compliance with 37 CFR § 1.821 through 1.825 is attached. No new matter has been added.

CONCLUSION

The amendments to the specification above should be entered by the Examiner because the amendments are supported by the as-filed specification and drawings and do not add any new matter to the application. Should the Examiner determine that additional issues remain which might be resolved by a telephone conference, he is respectfully invited to contact Applicants' undersigned attorney.

Respectfully submitted,

/Christopher L. Wight/
